Medilight Pvt Ltd, founded in 2016 by the esteemed Dr. Srinivas Kandula, is driven by a deep commitment to natural health through hydrogen rich alkaline water. Dr. Srinivas Kandula, renowned for his expertise and decisive leadership, brings a compassionate approach to healthcare. Based in Hyderabad, Medilight strives to safeguard human health through innovative healthy water solutions.

Medilight Private Limited is a dedicated group with a fervent commitment to excel in the health and medical equipment industry. We believe in driving our business forward through innovation and technology. With our headquarters in Hyderabad and over 74+ delightful centers across India, we're backed by years of industry expertise. Our network is composed of motivated specialists who have propelled Medilight to be a leader in hydrogen-rich alkaline water ionizers. Our motivation is to offer enhanced, customized products that foster profitable relationships. Research and Innovation as well as a zeal for transparency.

T about Tyent

"Since 1995., Tyent has been a leading brand in the water ionizer space. Powered by advanced Japanese technology, it brings innovation that goes beyond function, adding an elegant and aesthetic look to your kitchen. Its sleek design seamlessly fits your space, creating an elegant touch.

Yet, Tyent water's health benefits go beyond looks. Certified as a medical device, it offers a wealth of health advantages. This transformative system turns tap water into a revitalizing elixir through its unique ionization process.

It produces hydrogen-rich alkaline water packed with antioxidants. Tyent supports each family member's health goals, aiding digestion, boosting immunity, enhancing skin, increasing energy, and addressing concerns like diabetes, thyroid, arthritis, and high blood pressure.

With Tyent's water ionizer at home, you're not just purifying water. You're nurturing your loved ones' well-being. "It's more than a machine it reflects a modern, health-conscious lifestyle that prioritizes comprehensive family health."

"Collaborations are at the Apex of like-minded Pursuits"

In August 2017, Medilight Pvt. Ltd. collaborated with Taeyoung co.Ltd., a parent company of Tyent Water Ionizers in launching TYENT Water Ionizers PAN INDIA.

Tyent is one of the leading water ionizer companies across the globe with the privileged customers ranging from a wide array of celebrities, major bureaucrats, entrepreneurs, doctors, and the esteemed world of professionals. Some water ionization brands claim to have the best ionization technology, but, when compared side-by-side, our alkaline water machines outperform in each and every category. We accredit the success of our ionized water to research and innovation as well as a zeal for transparency.

Pollution
UV Radiation
Cigarette Smoke
Alcohol Consumption
Carbonated soft drinks
Pesticides and Chemicals
De-mineralized water
Processed foods
Sedentary lifestyle
Erratic eating pattern
Stress

Fast food

Free radicals (Active Oxygen))

Note: Free radicals are unsteady compounds that can harm healthy cells. They are typically introduced into our bodies by external factors such as pollution, radiation, Processed foods, Carbonated soft drinks, alcohol consumption, cigarette smoking, pesticides and herbicides..

Current scenario & Challenges

the vitality of Hydrogen

Researchers estimate that at least 90 percent of the visible universe is composed of hydrogen. Without being bound to any other element, this molecule is available to be absorbed, incorporated, or dissolved.

Although the research is early, the 2000+ scientific studies including over 100 clinical studies suggest that ionized hydrogen water has therapeutic potential in over 170 different human and animal disease models, and in essentially every organ of the human body.

When we breathe in oxygen, not all of it is used, especially in stressful situations. The extra oxygen can transform into free radicals, which attach to different cells, leading to oxidation. This process can harm cell components, including proteins and DNA. Hydrogen steps in as a welcome surprise, countering these effects. Tyent water ionizers produce selective anti-oxidant molecular hydrogen, which plays a crucial role in neutralizing harmful free radicals and reduce oxidative stress. This contributes to better overall health and well-being.

Ionized Hydrogen Rich + Alkaline Water

efficiency of Alkaline

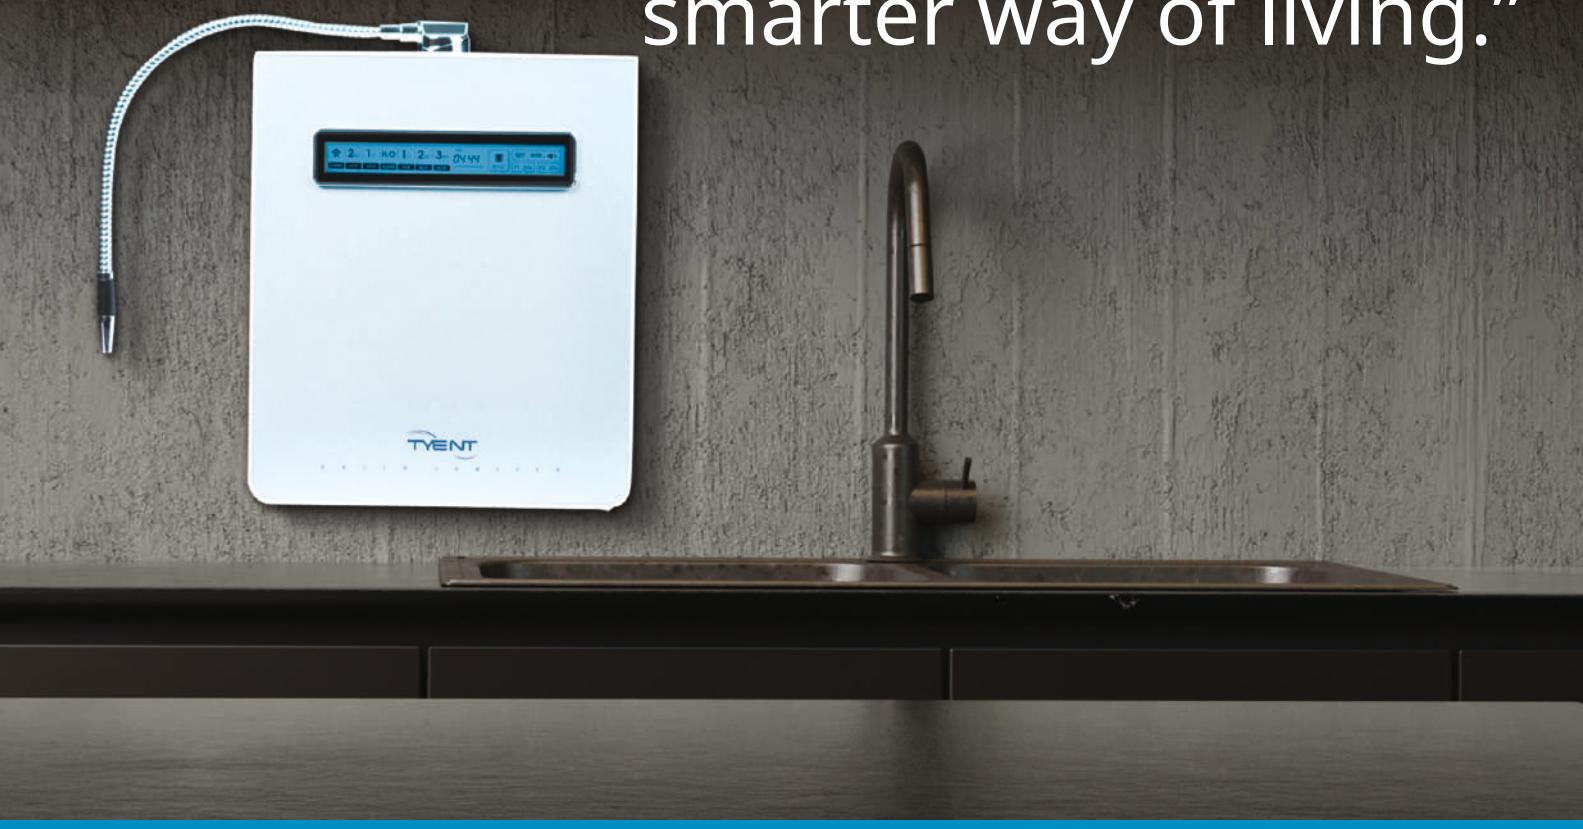

Alkaline water has a higher pH level compared to regular tap water, indicating it is less acidic. Typically, its pH falls above 7, ranging from 8 to 9.5 or even higher. Conditions related to acidic stress, including Diabetes, Thyroid issues, Gastric problems, Constipation, Acidity, Cancer, Cardiovascular diseases, Chronic respiratory conditions, and Coronary heart diseases, are attributed to this acidity.

Tyent ionized hydrogen alkaline water is alkaline in nature with a pH value of drinking water (7pH - 9.5pH) which helps in neutralizing disease-causing acidic nature.

Tyent water has a magical combination of selective antioxidant molecular hydrogen and alkalinity. The selective antioxidant molecular hydrogen works to counteract free radicals and reduce oxidative stress. Meanwhile, the alkalinity in the water helps neutralize acidic stress. This combination contributes to a more balanced and beneficial hydration experience.

"Transform your lifestyle with
Tyent water ionizers for a healthier,
smarter way of living."

Tyent NMP - 5 Tyent NMP - 7

M.R.P	Rs 1,68,000/-
Electrode plates	5
pH range	2.5 -11.5*
ORP Range	upto - 850*
Hydrogen Range	Up to 1550 ppb*
Generates	7 types of water levels
Surface area	52.9 x 5 = 264.5 sq inches
Warranty	3 Years on machine & 15 years on plates

M.R.P	Rs 2,05,000/-
Electrode plates	7
pH range	2.5 -11.5*
ORP Range	upto - 950*
Hydrogen Range	Up to 1550 ppb*
Generates	7 types of water levels
Surface area	52.9 x 7 = 370.3 sq inches
Warranty	3 Years on machine & 15 years on plates

*Depends on input water quality and Flow rate (No use of external chemicals, salts, or artificial enhancers)

"Transform Your Water,
Elevate Your Health -
Experience the Power of
Tyent Water Ionizers."

Tyent ACE - 13

M.R.P	Rs 3,67,999/-
Electrode plates	13
pH range	2.5 - 11.5*
ORP Range	upto - 1250*
Hydrogen Range	Up to 1800 ppb*
Generates	8 types of water levels
Surface area	52.9 x 13 = 687.7 sq inches
Warranty	3 Years on machine & 15 years on plates

*Depends on input water quality and Flow rate (No use of external chemicals, salts, or artificial enhancers)

"Experience Future with Tyent's H2 Hybrid waterionizer with patented technology"

Introducing the world's first-ever Hybrid water ionizer, a marvel that combines the power of a water ionizer with a cutting-edge Hydrogen Generator for an unparalleled experience

Tyent H2 Hybrid (H2O water)

M.R.P	Rs 3,67,999/-
pH range	2.5 -11.5*
ORP Range	upto - 1250*
Hydrogen Range	Up to 1900 ppb*
Generates	8 types of water levels
Technology	Twin cell Technology
Warranty	3 Years on machine & 15 years on plates

*Depends on input water quality and Flow rate (No use of external chemicals, salts, or artificial enhancers)

"Experience the pinnacle of luxury design.

Elevate your kitchen with unparalleled elegance and style.

Tyent UCE - 9 PLUS

M.R.P	Rs 3,25,000/-
Electrode plates	9
pH range	2.5 -11.5*
ORP Range	upto - 1050*
Hydrogen Range	Up to 1800 ppb*
Generates	8 types of water levels
Surface area	52.9 X 9 = 476.1 sq inches
Warranty	3 Years on machine & 15 years on plates

Tyent UCE - 11 PLUS

M.R.P	Rs 3,46,000/-
Electrode plates	11
pH range	2.5 -11.5*
ORP Range	upto - 1150*
Hydrogen Range	Up to 1800 ppb*
Generates	8 types of water levels
Surface area	52.9 x 11 = 581.9 sq inches
Warranty	3 Years on machine & 15 years on plates

*Depends on input water quality and Flow rate (No use of external chemicals, salts, or artificial enhancers)

"Where technology meets luxury:

Introducing our premium under-counterwater ionizer. This space-saving master - piece is designed for spacious and luxurious kitchen environments."

*Depends on input water quality and Flow rate (No use of external chemicals, salts, or artificial enhancers)

Why to Drink Tyent Water?

1

Alkanity

Tyent water is alkaline in nature. Which helps in Neutralizing acidic nature in human which is the root cause of all major and lifestyle diseases.

2

Micro-Clurstered

Due to its micro-clurstered property Tyent water will penetrate faster to all the cells & organs. Providing better penetration, better hydration, better detox and faster supply of minerals/vitamins.

3

Anti-Oxidant molecular hydrogen:

Molecular Hydrogen is a strongest selective antioxidant in Tyent water has a powerful negative -ORP (Oxidation-Reduction Potential), which effectively combats oxidative stress by Neutralizing disease causing harmful free radicals.

4

Rich in minerals:

Tyent water is rich in alkaline minerals such as calcium, magnesium, potassium, and sodium. Helps in promoting bone health, Aid in muscle function, Support cardiovascular health, Boosts immune function & boosts metabolism.

5

Pure Healthy water

Tyent water Ionizer with 0.01 micron filtration provides purest & healthy water, Which is free from bacteria, virus, contamination & dangerous metals.

Choose Tyent...?

Why to

Cutting-edge Japanese Technology

"Tyent water ionizers feature solid hybrid mesh Plates/Electrodes made with Japanese technology from Permalac, Japan (established in 1969). These medical-grade platinum-coated titanium plates undergo multiple dips and baking, ensuring exceptional durability and performance. With an updated design, Tyent plates provide an expanded surface area, resulting in higher antioxidant (-ORP) production. Backed by a 15-year warranty and a lifespan of up to 45+ years, Tyent delivers superior water ionization and long-lasting health benefits."

Patented SMPS PLUS Power Supply:

"Tyent's patented SMPS PLUS Power Supply redefines water ionization with advanced technology, it delivers stable, efficient energy for optimal ionization, offering water from pH 11.5 to 2.5 without chemicals or enhancers."

Exceptional 0.1 Filtration Capacity:

"Tyent's .01 Micron Extreme Filters are the market's most advanced and rigorously tested water ionizer filters. They undergo testing at actual tap flow rates, conducted by independent, EPA, and NSF (Government-Certified) laboratories, ensuring top-quality filtration."

Chemical & Enhancer-Free Usage:

"Tyent stands as the sole brand in the water ionizer industry capable of producing pH levels from 11.5 to 2.5, completely free from chemicals or enhancers. This achievement is made possible by Tyent's advanced solid hybrid mesh plate design and patented SMPS Plus technology."

Convenient Doorstep Service:

"Tyent offers a hassle-free 3-year warranty on the machine and an impressive 15-year warranty on the ionization chamber (plates). During the 3-year warranty period, every customer receives 9 scheduled doorstep services at no extra cost."

Certified Internationally:

"Tyent boasts over 60+ international patents and holds certifications from all major global quality authorities.

Globally Available in 86+ Countries:

"Tyent is a pioneering force in the water ionizer industry for over 30+ years, now accessible in 86+ countries worldwide."

Advanced PAST Cleaning System:

"Tyent Water Ionizers uses an advanced Polarity Anti Scale Technology (PAST) for efficient cleaning. It's activated by a timer and internal sensor, reducing mineral scale buildup on electrodes. This leads to prolonged component life and healthier water quality."

Tyent water ionizer has More than 60+ international patents and certified by all international quality certification authorities.
